SHRI RAM PRODUCTS

Company Profile

This industry been started in 1984 as a Small Scale Industry under the proprietorship of Shri Brij Lal Baghla.

Gradually the company been diverted in Zinc Coating Jobs & Manufacturing Industry.

When established in the market quality & quantity wise industry started taking the Govt. Tender mainly of Electricity Boards.

The Product once came in the line we cross the Four Crores in year 2006-2007 and we took the Excise no. (Statutory Govt. requirement). Further this Turn over increase gradually this year we are on line of crossing target of Thirteen Crores (300 % of the sale of 2006-07)

The sale gradually increases and today is a quality name as supplier of L.T. & H.T. Aerial Bunched Cable Accessories, Earthing Pipe, M.S. Type Earth Rod complete (Single Phase & Three Phase Both), L.T. and H.T. G.S. Steel Stay set (all type), P.G. clamps (all type), T&C type disc Hardware for 11 KV Pin insulator, B&S Type Disc hardware, LT & HT Danger Board, Alluminium Bobbin, Line Spacer 1 ph 2 wire, Line Spacer 3 ph 4 wire, LT & HT Pin, Stay wire, GI Wires, Aluminium Binding wire, Jointing Sleeves (all type), T-Clamp for Panther & Dog Conductor, LT Shackle H/w, and all type fabrication work.

Our present esteemed customer are **Jodhpur Vidhyut Vitran Nigam, Ajmer Vidhyut Vitran Nigam, Jaipur Vidhyut Vitran Nigam Ltd., Madhya Gujarat Vij Company Ltd. Vadodara, M.P. Paschim Kshetra Vidyut Vitaran Co. Ltd. Indore, M.P. Poorv Kshetra Vidyut Vitaran Co. Ltd. Jabalpur., Uttar Haryana Bijli Vitran Nigam Ltd. Panchkula, Punjab State Electricity Board Patiala., Chhattisgarh State Power Distribution Company Ltd. Raipur & NHPC Ltd.** Besides the above we are suppliers to **L&T (ECC Division) an Ahemadabad based company, Jyoti Structures Ltd. Mumbai based, AZZ Maintenance and Engineering Services (P) Ltd. Gurgaon, ICSA (INDIA) Ltd. Hyderabad, ABB Ltd. Vadodara, Oswal Cables (P) Ltd. Jaipur, Sintex Industries Ltd. kalol. Gujrat, Raychem (RPG) Ltd. New Delhi., Genus Power Infrastructure Ltd. SHRI RAM PRODUCTS

Paralled Grooves Clamps (PG Clamp)

We use quality materials and latest technologies in developing **PG clamps** which are more durable, long lasting and reliable. To hold the Conductor wires. All the products offered by us are well tested and checked before offering to the customers to Make sure its standard quality and reliability. PG clamps are used to Connect two Parralled Conductor by accommodating one in each groove. The Comudate may be Simileres dis. Similar

Our Range of Products includes :

- Weasal, Rabbit
- Reccon
- Dog
- Panther
- Zebra

FURTHER DETAILS

We are a prominent manufacturer and exporter of PG Clamp. These parallel-groove clamps are known for their longer service life and corrosion resistance. The material used in the manufacturing process is procured from reliable and trusted vendors of the market. The PG Clamps are made of Aluminum Alloy. We offer high quality parallel-groove clamps, which are high on demand among our clients for their high tensile strength, corrosion & abrasion resistance and durability.

FURTHER

- Durable
- Al. Alloy
- Strength
- Corrosion Resistance
- Long Lasting Performance

Dead End Clamp

We manufacture qualitative **Dead End Clamp**, which are used at the end of circuit. These products are useful for power line installation in industry. Further, we can customize our products as per the requirement of our customers. Apart from this, our products are used to guide optical ground wire, insulated aerial bunched cables and power line installation. The Clamp consists of an aluminum alloy costed body and self adjusting plastic wedges which clamp the neural messenger without damaging the insulation.

Our Range of Products includes :

- REC Type
- NFC Type

FURTHER DETAILS

The company is well known in the market for the manufacture of a high quality of products such as the **Dead End Clamp** which have been designed in an efficient manner using the best technology available in the market and these products have been made using a high quality of materials which have been bought from well known vendors in the market. They are used for a wide range of applications in different kinds of industries.

Dead End (NFC)

Dead End (REC)

FURTHER

- Strength
- Corrosion Resistant
- Low Maintenance
- Different Dimensions
- High Performance
- Tool free installation
- Exceeds requirement Doeridity to NFC 33041 and 042

Suspension Clamp

We offer an deal in wide range of **Suspension Clamp**. It is fabricated using optimum quality raw materials, our clamps are broadly demanded and appreciated for their reliability Corrosion Resistant, abrasion resistant, long life. We offer our range after checking and analyzing them on specified quality standards, which ensure that the final range is free from defect.

Our Range of Products includes :

- REC Type
- NFC Type

FURTHER DETAILS

We offer an deal in wide range of **Suspension Clamp**. They are technically superior and provide better insulation. These suspension clamps are easy to operate and are made using premium quality materials. These clamps are made with precision and attention to each and every detail in order to manufacture the most precise and accurate product which operates efficiently. Clamp and Movable link of NFC Standered Suspension clamp made of weather and UV resistant glass Fibre rein forced polymers.

- Long
- Durability
- Strength
- High Performance
- Tool free installation
- Exceeds requirement according to NFC 33040

SHRI RAM PRODUCTS

Hardware Fitting Fr Disc Insulator B & S Type

We are engaged in manufacturing, supplying and of **Hardware Fittings B&S Type**. Our company is involved in offering qualitative assortment transmission and distribution components and hardware that are used for overhead L/T line and H/T line.

Our Range of Products includes :

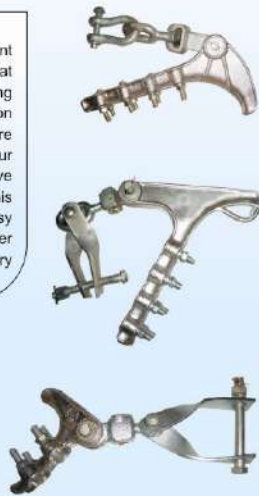

- For 45 KN Disc Insulator
- For 70 KN Disc Insulator
- For 120 KN Disc Insulator

FURTHER DETAILS

Our company is involved in offering qualitative assortment transmission and distribution components and hardware that are used for overhead L/T line and H/T line. We are offering B&S Type Hardware Fittings. We have carved out a position in manufacturing, and supplying an elite array of Hardware fitting that is known for premium quality and durability. Our offered range is certainly unproblematic to maintain and have created wide demands in the market across the globe. This range is widely known for its better insulation and easy operation. apart from this standard range, we also offer customize parts as per clients' specifications, at very economical prices.

FURTHER

- High Tensile Strength
- Durability
- Feasible Rates
- High Performance
- Corrosion Resistance

SHRI RAM PRODUCTS

Hardware Fitting ofr Disc Insulator T & C Hardware

We are engaged in manufacturing, supplying and of **Hardware Fittings T&C Type**. Owing many years of experience in the industry, we offer our clients functionally advanced range of Overhead Transmission Line Material that are valued among the clients for sturdiness and smooth surface finishing. Our entire product range is fabricated as per the set quality standards and guidelines and ensures high output. Our professionals infuse advance technologies that assist us to cater diverse requirements in most efficient manner.

Our Range of Products includes :

- For 45 KN Disc Insulator
- For 70 KN Disc Insulator
- For 120 KN Disc Insulator

FURTHER DETAILS

Keeping in mind the diverse requirements of the clients, we offer our clients wide range of Single & Double Tension Fittings that are durable and are corrosion resistant in nature. These products are acclaimed for easy installation and are used in different applications. In power Sector We offer them in different sizes and dimensions and are functionally advanced in nature. Furthermore, we offer them at most affordable rates.

FURTHER

- Tensile Strength
- Optimum Quality
- High Performance
- Durability
- Corrosion Resistance

SHRI RAM PRODUCTS

LT Connector

We are undoubtedly amidst the leading manufacturers, suppliers and of **LT Connector**. Our highly qualified professionals use It is offered in different sizes and designs so that clients can avail in tune with their diversified requirements. Offered LT Connector is widely used in electric Lines and other areas for connecting the low tension lines. Use Alumim Alloy as our raw Material Which make our product corrosion free.

Our Range of Products includes :

- REC Type - Type A & B

FURTHER DETAILS

LT connectors with cover, designed for high voltage applications while maintaining a 50 Ohm impedance, are not interchangeable. These LT connectors can be adapted efficiently to smaller diameter cables. We use advanced techniques to fabricate these in order to fulfill the requirements of the following :

- * fixing the holding cables
- * distribution line

FURTHER

- Corrosion Resistance
- Long Lasting Performance
- High Performance
- Fine Finish

SHRI RAM PRODUCTS

Piercing Connector

Our range of insulation **Piercing Connectors** can be used as a splice or tap for non tension applications with specially designed contact teeth, these clamps are suitable for the connection of aluminum and copper, widely used in low voltage insulated lines. Piercing Connector Simple installation read not strip the cable cut Piercing Pressure is constant, Keep good electrical connection and make no damage to read. water proof and anti corrosion. Piercing connector are made by UV resistant reinforces Plastic as per NFC-33 020 am 003

Our Range of Products includes :

- Weigh Connector
- Type-A
- Type-B

FURTHER DETAILS

Our range of **Piercing Connectors** are used to make connection without removing insulation of the cable. These products can accommodate both aluminum and copper conductors and can be used as a splice or tap for non tension applications. Further, these products are applicable in a number of areas such as home appliances, automotive industry (anti-lock braking systems, power windows, etc.), furnaces and in electrical motor and transformer industries.

FURTHER

- Quality Specification
- Long Lasting Performance
- High Performance
- Corrosion Resistant
- Easy to Install

SHRI RAM PRODUCTS

Stay Set

We are a well-known **Stay Set** Manufacturer and Wholesale Supplier in Jaipur, Rajasthan. These Stay Sets are especially made in accordance to the specifications laid by the esteemed clients. Manufactured with the use of best quality raw materials, these Stay Sets are guaranteed for long term usage. Apart from this, we offer these Stay Sets at the most economical prices.

Our Range of Products includes :

- 16x1800 mm
- 20x2400 mm
- 20x1800 mm

FURTHER DETAILS

We are engaged in fabricate premium quality assortment of **HT & LT Stay Sets** and allied products. These are widely used for fixing and holding electrical pole (railways) as well as electric transmission lines. Today, we are recognized as a highly reputed HT and LT Stay Sets Manufacture. Our products have high demand across various market segments in India. we fabricate products using premium grade raw materials & cutting edge technologies.

FURTHER

- Good Quality
- Mechanical Strength
- Corrosion Resistance
- Economically priced
- Durability

SHRI RAM PRODUCTS

GI Wire

We make the best **GI Wire** in the entire industry. These are mild steel galvanized wires that ensure durability and efficiency at the application area such as Earthing. They are made in state-of-the-art facilities by skilled engineers who believe in delivering quality products.

Our Range of Products includes :

- 6 SWG
- 8 SWG
- 10 SWG
- 12 SWG

FURTHER DETAILS

Galvanized Wires are manufactured and supplied by us that are made with top quality wire rods. Our Galvanized Wire is provided in Hot Dip galvanized zinc coating with soft quality. Galvanized Wires offered by us are used For earthing purposes, manufacturing of many wire products, such as Chain link, Stay wire, Barbed wire, Wire mesh/netting.

Applications : Earthing purposes. Manufacturing of Barbed wire, Chainlink Fencing, Stay wire, Wire mesh/ netting

FURTHER

- Good Quality
- High Mechanical Strengths
- Economically priced
- Durability
- Corrosion Resistant

SHRI RAM PRODUCTS

Stay Wire

We are offering superior quality **Stay Wire** that are manufactured using high grade raw material. The range of **Stay Wire** also undergoes stringent quality control tests to make them free from all drawbacks. We make available Stay Wire at leading prices. We are a prominent Stay Wire Manufacturer based in India.

Our Range of Products includes :

- 7/8 swg
- 7/10 swg

FURTHER DETAILS

Being one of the prominent Manufacturers and Suppliers of the premium Stay Wire in India, the company provides a wide range of Stay Wire. Our Stay Wire is made up of the finest galvanizing wire. Furthermore, the Stay Wires that are offered by us are widely used in Electricity Boards.

Applications : Over head Line Work , Electricity Bord etc.

- Resistance to Corrosion
- Good Quality
- Better Strength
- Assured Durability
- High Ductility

Stay Wires

SHRI RAM PRODUCTS

GI Pin for Pin Insulator

We bring forth for our clients superior quality Insulator. These Insulator Pins are made from high quality of raw material which ensure durability at its user end. Our clients can avail from us these products at most competitive rates. We are manufacturig LT Pins, 11 kv Pins & 22 kv pins, 33 kv as per client Specification.

Our Range of Products includes :

- LT PIN
- 11 KV PIN
- 22 KV PIN
- 33 KV PIN

FURTHER DETAILS

We are involved in offering LT Pins **11 KV Pins, 22 KV Pins, 33 KV Pins**, manufactured by our engineers using high grade material following the Client standards. These are used to check the position of center pin in the coaxial connectors. These gauges contain housing plus a fitting on one end of housing to attach to coaxial connector along with a gauge pin sliding that is placed within housing so as to engage center pin of coaxial connector.

Pin-33KV Pin

FURTHER

- High Ductility
- Low maintenance
- Resistance to Corrosion
- Better Strength
- Assured Durability

SHRI RAM PRODUCTS

Earthing Rod

We have uniquely positioned ourselves as a prominent organization, engaged in providing a precision-engineered array of **Earthing Rods**. Our offered range is manufactured by utilizing sophisticated technology and the latest equipment at vendors' ultra-modern production unit. Moreover, post production process goes through various stages of quality tests, ensuring durability and quality. In addition to this, these products are capable of finding extended application in various industries.

Our Range of Products includes :

- 16 mmdia - 1800 mm long
- 20 mmdia - 2500/3000 mm Long
- 40 mmdia - 2500/3000 mm Long

FURTHER DETAILS

These Earth Rods is useful for installing a low earth resistance with cost effective solution. It has a low carbon, high tensile strength, steel core and pure copper is applied electrolytically and helps to establish metallurgical bond between the steel core and the copper.

Earthing Rods

FURTHER

- Anti-Corrosive
- Rigid Construction
- Long Lasting
- Excellent Finish
- Assured Durability

SHRI RAM PRODUCTS

GI Pipes/GI Earthing Pipe

We are one of the leading Supplier and distributor of wide range of **GI Pipes**, Galvanized Steel Pipes & Steel Tubes for various purposes. We also supply customized products as per the requirement of the buyers which makes us the leading GI Pipe suppliers, GI Pipe exporters and distributors. GI Pipes/Galvanized steel pipes are covered by a layer of zinc. GI pipes and tubes are mostly used in structural applications & Earthing purpose (in diameter) GI steel pipes and tubes are available in various size and shapes based on the customers requirements.

Our Range of Products includes :

- 20 mm
- 40 mm
- 125 mm
- 150 mm
- 200 mm

FURTHER DETAILS

Pipes and tubing made of GI steel has long been one of the most used building materials in the world. For decades, designers, builders and consumers seeking long-term structural performance in the outdoor applications have turned to zinc-coated steel pipes. Zinc-coated galvanized steel pipes and tube resist the attack of wind, water and road salts.

FURTHER

- Steel Pipes as per ASTM Specification.
- Galvanized Hollow Sections.
- Leading Supplier of Manipulated Tubes.
- Excellent Finish
- Assured Durability

SHRI RAM PRODUCTS

Earthing Coil

We are involved in offering **Earthing Coils**, manufactured at vendors' end, possessing wide industry experience and deep knowledge in this domain. These products are manufactured using topmost raw material with the help of advanced technology and machines in adherence to set industrial standards at vendors' end. The offered products are available in various length & sizes as per specifications of our valued clients. Moreover, the products offered by us are delivered within promise time frame.

FURTHER DETAILS

Adhering to the patron-focused business policies, our organization is involved in manufacturing, supplying and **Earthing Coil**. We source the qualitative raw materials from the reliable vendors for manufacturing the offered Earthing coil. It is provided in different sizes and other specifications to fulfill clients' diversified requirements. Moreover, we deliver this coil in qualitative packaging at the premises of our customers to assure their high convenience.

Earthing-Coil

FURTHER

- Excellent Finish
- Assured Durability
- Flexibility Long Lasting
- Smooth Finish
- Corrosion Resistance

SHRI RAM PRODUCTS

Free Pulley

We offer a broad variety of Free Pulley which are manufactured using high quality material and used in a variety of industries for different applications. Quality analysts to make sure that defect free variety is supplied to our customers also check our ranges of products severely. Our products are highly demanded for their toughness and versatility. These hook assembly's can be personalized as per our precious customers.

FURTHER DETAILS

We have established ourselves as a renowned manufacturer and supplier of Free Pulleys. All our products are widely acknowledged by the customers due to their durable finish, high strength, corrosion resistance and low maintenance. We also have a team of expert quality controllers, which stringently check the entire range on various parameters to ensure flawlessness. We also provide customization as per the specifications detailed by the clients for our products.

FURTHER

- Designed to Deliver Heavy Duty Functioning
- Widely used for lifting applications
- Assured Durability
- Long Lasting Nature
- Smooth Finish

SHRI RAM PRODUCTS

Pole Clamps & Eye-Hook

Being one of the well known manufacturers and suppliers of Various range of industrial and engineering products, we also offer our esteemed customers a vast array of **Pole Clamp & Eye-Hook**. All these clamps are made by using quality components and latest terminologies. Followed by all standards, these clamps are widely applicable in different power utilities Indian.

FURTHER DETAILS

We are a coveted manufacturer, and supplier of PCC **Pole Clamp & Eye-Hook** that are used to hold objects in order to prevent separation or movement caused by inward pressure. Pole Clamps are sturdy in construction and have high tensile strength. Moreover, Clamps are durable and offer highly cost effective solutions. Pole Clamps are easy to install and available in various sizes to meet diverse requirements of the application

FURTHER

- Tensile Strength
- Optimum Quality
- Corrosion Resistance
- Easy to Handle and Use
- Uniform Zinc Coating
- Glossy appearance
- Affordable prices
- Easy Maintenance
- Dimensionally Accurate
- Smooth Finish

SHRI RAM PRODUCTS

Danger Board & Sign Board

We are offering a wide range of **Danger Board** to our clients, which is of superior quality and is widely used in power sectors. All these danger and sign boards are made up of high quality materials and are supplied to various. Power utilities. Our products are very effective and easily understandable and can be seen from a long distance. Our range of products can be easily available at very reasonable rate.

Our Range of Products includes :

- LT Danger Board
- 11 KV Danger Board
- 33 KV Danger Board
- 132 KV Danger Board & Sign Board
- 220 KV Danger Board & Sign Board

FURTHER DETAILS

Danger Board is manufactured by us using the Shearing machine & power press. This danger board is supplied by us in plenty of designs, sizes and colors. These danger boards are highly in demand in the national and international market. It is used in Transformers and other such places Various Power utilities.

FURTHER

- Good surface Finish and Dimensional Consistency
- Excellent Outdoor Weather Ability
- Rust Proof Withstands Solar Radiation and Heavy Rains
- Maintenance
- Easy to Handle and Use

SHRI RAM PRODUCTS

LT Shackle Hardware for Shackle Insulator

We manufacture and supply a range **Shackle Hardware** that is assured to have high quality standards. These are appreciated by the clients for durability, exact dimensions, optimum finish and corrosion resistance. To meet the specific requirements of the clients, we also offer custom made g. I. Bow shackle in different sizes and with end fittings tailored precisely to fit desired application.

FURTHER DETAILS

We manufacture a wide range of **Shackle Hardware** for our esteemed clients. These are made of high quality raw material with the use of various sophisticated machines and equipments. We provide these to our clients in customized sizes and specifications to meet the varied requirements of our clients.

Shackle Hardware

FURTHER

- High Performance
- Longer Functional Life
- Low Maintenance
- Easy to Handle and Use

SHRI RAM PRODUCTS

Steel Tubular Pole

We are one of the leading manufacturers and suppliers of wide range of Single Armand double arm **Steel Tubular Poles** these are fabricated using superior quality raw material procured from reputed vendors of the market. Clients can avail these as per their requirements, at the most reasonable prices.

FURTHER DETAILS

We are offering a wide collection of **Steel Tubular Poles** to our prestigious clients. Our products are in accordance with the ISI. We have an extensive testing facility at our manufacturing plant to assure its quality. We have a plant capacity to operate based on requirement. We look forward to set up an appointment with you at your convenient time to introduce our company personally.

FURTHER

- Zinid 2 Touch
- 3 End 2 Esistript
- High Durability
- Easy to Handle and Use
- Corrosion Resistance

SHRI RAM PRODUCTS

Steel Pole (H-Beam Type)

The company has created a strong foothold in the business of manufacturing and supplying **Steel Poles**. The Poles provided by us are suitable for transmission lines. We supply these Steel Poles to various electricity board and Various power utilities till companies in different Sizes. The clients can obtain these Poles at prices Feasonable by us.

Our Range of Products includes :

- R.S. Jaist Type Pole
- H-Beam Type

FURTHER DETAILS

We offer a comprehensive range of **Steel Poles** that are available in Various shapes and sizes. These poles are used in multiple application in various Power utility such as PGCL, HHPC, NTPC, L & T, construction, telecom etc. Our products have excellent resistance against environment.

FURTHER

- Accurate Dimension
- High Beneliny Resistivity
- Good surface Finish
- High Weather Resistanity
- Longer Life

SHRI RAM PRODUCTS

Fabrication Various Types of Fabricated Item

Our array has been fabricated in total observance of the quality guidelines of the industry that makes its unmatched as far as quality is concerned. **Not only this**, but also we work with a team of quality controllers, who monitor the **fabrication** process to make sure that the final products are immaculate and devoid of manufacturing defects. Considering the specific requirements of our esteemed customers, we develop the offered products in standards as well as customized options.

Our Range of Products includes :

- V-Cross Arm
- Cut Point Channel
- Horizontal Cross arm
- D.P Structure
- PCC Pole Clamp
- 11 KV Sub Station Structure
- Latice Tower
- 33 KV Sub station
- Trans Former Structure
- Top Hamper
- Various Type Clamps

FURTHER DETAILS

Backed by tremendous knowledge of the industry, we have achieved trustworthy distinction in the domain of fabrication and supply of V-Crafts,Cut Point Structure,Transform Structure,P.P Structure,Pole Clamp. These products are readily accepted for being innovative, dependable while their structure is robust and resistant to corrosion. Assisted by industrious professionals, we fabricate these products in and customized specifications.

FURTHER

- Accurate Dimension Bend Resistance
- High Tensile Strength
- Superior Finish
- Weather Resistant
- Longer Life
